Retaining Entry Level Employees Facilitated by Lesley Pickard and Amanda Kendall	https:attendee.gotowebinar.com/rt/654617713838285571	Thursday October 6, 2016 @ 1:00 pm Thursday December 1, 2016 @ 1:00 pm

Retaining Entry Level Employees

It can be difficult and perplexing to recruit, motivate and retain entry-level employees. This dynamic webinar will present you with low-cost or no-cost recruitment and internal motivation methods, effective training methods, the real cost of having high turnover, how to retain your entry-level employees, and much more. Learn Low-Cost & No Cost ways for Employers to retain their Rock Stars.

Special note: The use of a good headset with a USB plug gives better sound in the webinar compared to cheaper headsets with **analogue pins.** Laptops with built in mic and speaker are ok for sound but also not nearly as good as a quality headset. A phone can be set up as well but there either has to be a 1-800 number by the organizer or the participant pays for a phone call. VoIP and a headset are free and definitely the way to go. Some sites connect laptop in a lab to a big screen TV for several to watch. One person has a microphone to ask questions as needed.
