**Sector(s):** Healthcare

**Closing Date:** April 06, 2023

**Location:** Thessalon, ON

**Duration:** Part Time

## Job Description:

Algoma Manor Nursing Home strives to provide quality care through innovative teamwork in a warm nurturing home where residents can be themselves. As a Registered Nurse, you will provide direct nursing care to patients, deliver health education programs and provide consultative services regarding issues relevant to the practice of nursing.

The Registered Nurse is accountable for the assessment and planning of resident care needs, delivery of skilled procedures, medication administration and documentation in accordance with quality management, legislative requirements and the organization standards.

As a valued member of the team, the Registered Nurse demonstrates a commitment to resident safety by providing quality care in accordance with the organization's vision and mission.

## RESPONSIBILITIES:

- Provides nursing care in accordance with established policy, physician's orders, the resident plan of care, and within the scope of practice of an RN.
- Utilizes sound nursing practice principles, the RN will ensure delivery of excellent nursing and personal care in the assigned home area(s).
- Coordination of activities necessary to operate the nursing care unit economically and efficiently and in compliance with applicable legislation.
- Assists with the development and implementation of policy statements and guidelines that reflect the philosophy of the Home.
- Provides appropriate and timely reports to the Director of Care.
- Liaises with Ministry of Health Compliance Advisors and Consultants, social workers, physicians, psychiatrists, the Coroner and appropriate health care facilities.
- Responsible for assessing, planning, implementing and evaluating nursing care to meet the physical, psychological, emotional, spiritual, cultural and social needs of the residents.
- Demonstrates a professional working knowledge of all equipment used in the delivery of nursing care.
- Identifies issues to ensure an adequate inventory of nursing supplies at all times.
- Interprets the services of the home, where necessary, to the public, residents, visitors, team members and volunteers.
- Ensures a timely and accessible admission for the residents including a comprehensive orientation to the home and the services offered within the home.
- Participate in the home's sustainable RAI MDS 2.0 model. Will complete the assigned RAI MDS 2.0 assessment cycle per resident as directed and required.
- Ensures that resident transfers and discharges are timely and safe.
- Ensures the supply, control and safekeeping of drugs and narcotics, and ensures protocols are followed on all assigned shifts.
- Responsible for the safekeeping of drug and narcotic keys in accordance with professional standards and organization policies.

- Participates in in-services and education of other nursing team members and team members in other departments as required.
- Acts as a role model for nursing team members performing within the professional guidelines of the College of Nurses of Ontario and in accordance with relevant legislation such as the Long Term Care Standards and the Nursing Act.
- In consultation with the resident/family, systematically collects data about the needs and health status of the resident for initial screening and for ongoing assessment in order to determine nursing diagnosis.
- Develops and maintains, in collaboration with members of the health care team, an individualized plan of care for each resident.
- Identifies priorities, target dates and strategies and interventions in order to contribute to the individualized care plan that achieves the best possible outcomes for each resident.
- Respects resident autonomy by involving residents in their own plans of care on an ongoing basis.
- Validates the plan of care, goals and objectives with the resident/family
- Collaborates with the inter-professional team in the planning, provision and evaluation of care.
- Fosters effective interpersonal relationships within the therapeutic communication guidelines established by the College of Nurses.
- Provides effective guidance and leadership for the Registered Practical Nurse (RPN) and the Personal Support Worker (PSW).
- Ensures that documentation standards are reflected in the resident's chart.
- Is actively involved in the development of, and compliance with set protocols, programs, policies and procedures for the department.
- Teaches RPNs and PSW/HCA's in relation to new skills, team teaching by sharing knowledge among peers, acts as a resource person in areas of specialization and provides follow-up and support for educational programs offered.
- Coordinates activities on the unit by actively participating in the inter-professional Care Planning meetings regarding resident/family needs.
- Liaises with other disciplines to ensure that a holistic, resident-centred approach to care is upheld.
- Reinforces and works towards achieving goals and objectives established by the Director of Care and the multidisciplinary care team.
- Participates in the unit programs (i.e. quality assurance, back education, infection control, etc.) and the accreditation process.
- Contribute to the professional development of others by acting as a role model, preceptor and mentor.
- Effectively participates in conferences with the interdisciplinary team providing care to the residents.
- Liaises with medical team members, nurse specialists, and consultants and supports effective clinical care for all residents.
- Conducts ongoing communication with families to inform them of changes in resident health status.
- Knows and interprets MOHLTC legislation, regulation and process.
- Provides leadership for all components of resident care in the absence of the ADOC or designate.
- Initiates the emergency plan as necessary.
- Response to all emergencies immediately; acts as the emergency manager until relieved by the ADOC, DOC or Administrator.
- Ensures the safety of all team members and residents in the home during the assigned shift.
- Work in accordance with the organization's Health and Safety Policies and Procedures and in compliance with the Occupational Health and Safety Act.
- Perform other duties as required.
