

Assistant Operator (Power Engineer 4th class)

Employer: GreenFirst Forest Products

Posted: 12 months ago

ES Job ID: 14027

Sector(s): Skilled Trades

Closing Date: May 03, 2023

Location: Kapuskasing

Duration: N/A

Job Description:

The activity of GreenFirst Forest Products is rooted in the forest! For us, well-managed forests really make sense for our business, our communities, and the environment. We have a deep connection to Canada's forest lands and sustainability. If this commitment to the environment and Canada's forests resonates with you, come join our team.

Position: Assistant Operator (Power Engineer 4th class)

Location: Kapuskasing, ON

GreenFirst is looking for a 4th class Power Engineer to help support the boiler house and assist the Shift Engineer with the day-to-day operation of the plant's steam, wood waste and effluent treatment systems.

Commitment:

- Live up to GreenFirst's values, principles, and guidelines.
- Bring an open and cooperative attitude to your job, contributing to our positive work environment.
- Comply with all health, safety, and environmental standards, as well as applicable regulations and laws

Responsibilities:

- Performs testing on all boilers and condensate systems
- Assists with the operation of gas boilers # 4 & # 5
- Adjusts chemical feed rates to maintain residuals
- Visually checks equipment (fans, stokers, grates, dampers, valves, and controllers) on all levels of Steam Plant
- Blows down water columns and gauge glasses
- Monitors softeners for hardness and regenerates softeners when necessary
- Mixes and maintains caustic tank and feed rates
- Assists during plug-ups on wood waste system
- Assists Biomass Operator on loader at times
- Changes charts and performs data entry in computer
- Records any operational problems in the Assistant Operators log book
- Changes various filters around the plant (precip, degasifier, MCC room)
- Assists in lockouts
- Assists with the chemical unloading including aqueous ammonia, lime, and phosphoric acid for WWTP
- Checks and starts up air compressors when required
- Performs duties as assigned by the Shift Engineer (assist in other mill areas)
- Takes steps needed to be taken in case of loss of a critical piece of equipment to ensure boilers stay operating
- Cleans up Rossing Plant Conveyor areas twice per shift unless otherwise directed by the Shift Engineer.
- Cleans up bridge conveyor every shift
- Ensures air hoses and wash up hoses are coiled up after use
